

I wanted to thank you on behalf of the Cure for Juvenile Diabetes Invitational Golf Tournament for having John Rollins come out and join us at the event. He really added to the event in so many ways. He became the highlight of the day on the course. Not only was he great with the people but great with ideas. In fact, he even popped down to the beat the pro hole at the end of the tournament with me and played out the last few groups. It really made the event.

Your addition this year really made a big difference.

Thank you so much!
